

DROUGHT EMERGENCY RESPONSE IN SOMALIA

01 JANUARY - 11 DECEMBER 2017

The humanitarian situation in Somalia is on the verge of catastrophe, and concern is growing that the trajectory is worryingly similar to Somalia's 2011 famine disaster, when an estimated 260,000 people died. Today, an estimated 6.2 million, more than half the country's population, face acute food shortage and the number of severely malnourished children is on the rise. This desperate situation comes against a backdrop of protracted conflict that has disrupted livelihoods and vital services such as health and water. The International Committee of the Red Cross (ICRC) jointly with the Somali Red Crescent Society (SRCS) and its vast network of volunteers continue to help drought-affected communities across Somalia in areas prone to conflict that are difficult to access.

RELIEF ACTIVITIES

450,696
PERSONS
received food rations of 50kg of rice, 25kg of beans and 10 litres of oil per household

110,142
PERSONS
received essential household items (EHI)

\$ 481,806
PERSONS
received financial support in the form of cash

395,642
PERSONS
received medical care at 25 SRCS clinics and 6 mobile health clinics

HEALTH CARE ACTIVITIES

42,245
PERSONS
Number of malnourished children treated in stabilization centers and SRCS clinics

7,251
PERSONS
were admitted in cholera treatment centres in Kismayo and Baidoa hospitals

WATER & SANITATION ACTIVITIES

172,100
PERSONS
have access to water through construction and rehabilitation of 27 boreholes

12,430
PERSONS
benefitted from the construction and deepening of wells

538,403
PERSONS
benefitted from access to safe and clean water through household water treatment, chlorination of water supplies and hygiene promotion

2,024,130*
PEOPLE ASSISTED

*Individuals benefiting from one or more assistance activities including food, EHI relief, health, water and sanitation
