ICRC

PREQUALIFICATION OF CONSULTANCY SERVICES

DELIVERY OF CONSULTANCY SERVICES FOR HEALTH PROGRAMS IN SOMALIA (Risk Management Unit)

BACKGROUND

The Risk Management Unit (RMU) is an internal department committed to establishing a transparent monitoring and advisory system. This is to support different tiers of management for effective and efficient implementation of interventions undertaken by the organization. Additionally, the department is focused on timely collection of refined information for relevant decision making both at program and policy level to further improve the accountability of all ICRC interventions and processes. The suggested monitoring system is based on the processes of constant learning from the interventions implemented both directly and indirectly in Somalia past, present and future.

SERVICES REQUIRED

The ICRC wishes to identify reputable firms with monitoring and evaluation experience on humanitarian projects inside Somalia; good knowledge of Somalia context and with diverse networks with the local communities and authorities.

The ICRC invites eligible M&E consulting companies, for the provision of Health-related monitoring services to the ICRC in Somalia. Selected companies will be integrated into the ICRC pool of consulting firms (roster) and will be invited to tender whenever assignments come up.

An eligible company **MUST** meet the following criteria to be considered for inclusion in the pool of consulting firms:

- Minimum 5 years' experience conducting third party monitoring in Somalia;
- Should have experience monitoring activities on Health programs in Somalia.
- Must be registered in Somalia;
- Must have very good knowledge of Somalia context and diverse networks with local communities and authorities, private and public sector, professional bodies, NGOs and academia;
- Capacity to travel and work in remote areas with volatile security;
- Experience in compliance, accountability, risk management, due diligence checks and/or auditing is strongly preferred.

Interested companies should submit the following documents:

- Detailed company profile indicating the type of business, verifiable previous experiences, number of staff and their profiles/CVs and contacts details (physical address of the company, phone numbers, e-mail addresses, contact persons)
- Company to state the locations in Somalia it operates in.
- Copies of registration certificates and business licenses.
- List of verifiable previous experiences, including names and contacts of known clients that they have implemented health-related assessments to, for ICRC's verification purposes.

For a company to be eligible, kindly provide all above required documents.

The submissions must be sent (scanned copies) by email to this Tender Box email address:

sok_logtender_services@icrc.org before **17 June 2024 at 16:00 East African time.**

Please mention the title **“PREQUALIFICATION, Monitoring and Evaluation services for Health Programs “specify the Location” Somalia”** in the subject of the message.

All submissions received will be held in confidence. Files submitted after the specified due date are deemed to be ineligible.

All participants will be notified of the result of the selection process as soon as it is concluded.

Selected companies might be asked to bring or sign additional documents as per ICRC procurement procedures.

We thank you for your anticipated co-operation and look forward to receiving your communication.
